Jens Jensen: A Force of Nature in Highland Park and the Midwest

Thursday, September 8

7 p.m., Auditorium

Inspired by the natural scenery of the Midwest, landscape architect Jens Jensen created the prairie style of landscape. Join us for this very special program with Julia Bachrach, preservationist and historian with the Chicago Park District, as she explores Jensen's work in and around Highland Park. The Friends of Jens Jensen will describe their efforts to restore Jens Jensen Park.

Meet the artist: Artist Yelena Klairmont will discuss her paintings, now on display in the Library, and how they reflect her own passion for Jensen's designs. The Library gratefully thanks Yelena for the long-term loan of these works of art.
